

Milestone 1 Overview

| Task | Completion | Daniel | Chris | Alex | Luka | To do | |
|----------------------------|------------|--------|-------|------|------|--|--|
| Website frontend | 20% | 0% | 0% | 100% | 0% | Inbox, Dashboard, Registration, Sign In | |
| Database/ hosting server | 100% | 0% | 50% | 50% | 0% | None | |
| Develop Data Structures | 25% | 0% | 50% | 0% | 50% | Implementation | |
| Requirement Document | 100% | 5% | 15% | 75% | 5% | None | |
| Design Document | 100% | 25% | 0% | 50% | 25% | None | |
| Test Plan | 100% | 5% | 95% | 0% | 0% | None | |

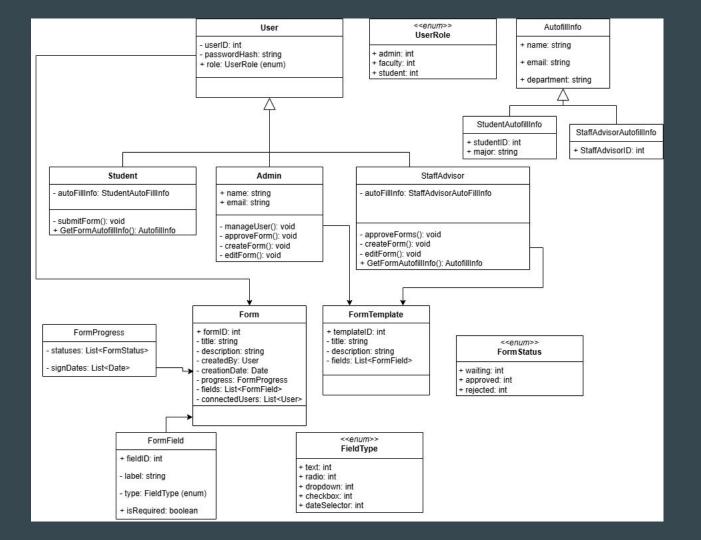

Technical Tools / Resolutions

- After deliberation as a team the best choice for hosting will be EC2 through AWS.
 - o Cheap
 - Some prior experience
 - Straightforward to use
- Terminology changes
 - Faculty will now be called Staff Advisors

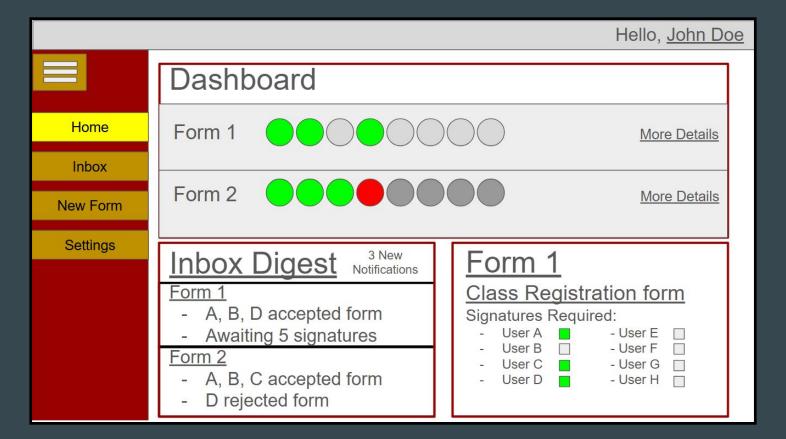

Requirements

- **Form Completion**: The system shall allow all user types to begin and fill out a form
- Form Tracking: The system shall allow all users to track a form that requires their input
- Form Layout Editor: The system shall allow Administrators to create, modify, (un)publish and delete forms
- **User Registration and Login**: The system shall allow users register/sign in to an account
- **Email Notification System**: The system shall send email notifications to users when a form has been updated.
- Dashboard: The system shall display a dashboard with summarized information
 of their active forms.
- Inbox: The system shall list all user notifications in the inbox module

FORM BUSTER: Web Registration and Track

Welcome to Form Buster, the web application solution to pdf forms at Florida Tech. The goal of our project is to remove any and all .pdf files from registrar forms. Forms such as Class Registration, FERPA, Program Plans for graduates and masters students will be avaiable to be completed.

To fill a form out:

- 1. Register/Sign in
- 2. Pick the form you would like to fill out
- 3. Track the status of your form

After you complete your form, it will automatically be sent to the faculty and admins necessary to approve and complete the form.

Form Tracking

A novel feature of this web application is the option to view and track a form and its status. For each form a user completes, they will be able to view to whom the form was sent and whether or not they have completed their part. Users will also recieve email notifications when their form is updated or it's status is changed.

Demo - Sign in (Mobile View)

| Log In | | | | | |
|--|--------|--|--|--|--|
| Email: | | | | | |
| Password: | | | | | |
| | Submit | | | | |
| If you don't have an account you can <u>create one here</u> . | | | | | |

Demo - Register (Mobile View)

| Register | | | | | |
|-------------------|--------|--|--|--|--|
| First Name: | | | | | |
| Last Name: | | | | | |
| Student ID: | | | | | |
| Major: | | | | | |
| Advisor: | | | | | |
| FIT Email: | | | | | |
| Password: | | | | | |
| Confirm Password: | | | | | |
| | Submit | | | | |

Form X Details

Testing

- Levels
 - o UI/UX
 - Database
 - Interaction
- Test Items
 - User Authentication
 - Profile creation
 - Form Storage
 - o Email Notifications
 - o Form Template Creation/Modification

Milestone 2

| Task | Daniel | Chris | Alex | Luka |
|-----------------------|--------|-------|------|------|
| Implement Frontend | 33% | 17% | 33% | 17% |
| Implement Routing | 0% | 100% | 0% | 0% |
| Implement Form Editor | 25% | 25% | 25% | 25% |
| Implement User Views | 0% | 0% | 100% | 0% |
| Implement Database | 0% | 0% | 0% | 100% |
| Implement simple form | 100% | 0% | 0% | 0% |
